CONTENTS

NUMBER 1, JANUARY

Short Communications from the Symposium 'Future Directions in Cardiovascular Research' held in honour of Professor Paul I. Korner

1 Preface: Future directions in cardiovascular research

3 Giraffes, rats and man — What is the importance of the 'structural factor' in normo- and hypertensive states?
B. Folkow

13 Abnormalities of resistance vessel structure in essential hypertension: Are these important?
M. J. Mulvany

21 Pathways linking renal excretion and arterial pressure with vascular structure and function
A. W. Cowley Jr, R. J. Roman and J. E. Krieger

29 Renovascular hypertension: Information from experiments using conscious dogs
W. P. Anderson, R. L. Woods and Y. Gao

33 The acetylcholine paradox: A constrictor of human small coronary arteries even in the presence of endothelium
J. A. Angus, T. M. Cocks, G. A. McPherson and A. Broughton

37 Evidence for a role for the cardiovascular amplifiers in human primary hypertension
G. Jennings, P. I. Korner, K. Sudhir, M. Esler, J. A. Angus and E. Laufer

43 Noradrenaline release from the rat heart during anoxia: Effects of changes in extracellular sodium concentration and inhibition of sodium uptake mechanisms
A. M. Dart and R. A. Riemersma

47 Neuropeptide Y and cardiovascular regulation
D. I. McCloskey and E. K. Potter

51 Cardiovascular functions of central noradrenergic neurons in rabbits
G. A. Head

55 Voluntary blood pressure control by biofeedback: Relationship to psychological characteristics
S. N. Hunyor, R. Bartrop, A. Craig, M. Cejnar, G. Liggins, R. Henderson and M. Jones

61 Hypertension and components of vascular resistance
M. J. West

NUMBER 2, FEBRUARY

Short Communications from the Symposium 'Future Directions in Cardiovascular Research' held in honour of Professor Paul I. Korner

65 Preface: Future directions in cardiovascular research

67 Adrenaline release by the human heart
M. Esler, G. Eisenhofer, A. Dart, J. Chin, H. Cox, G. Lambert and G. Jennings

71 Future directions for research into dietary and other lifestyle factors in hypertension
L. J. Beilin

77 Role of non-esterified fatty acids in regulating plasma cholesterol transport
P. J. Barter

81 The macrophage as an initiator of atherosclerosis
J. H. Campbell and G. R. Campbell

85 Cardiovascular disease risk factors in Australian Aborigines
K. O'Dea

89 Polyamide–oligonucleotide hybrid molecules
J. Haralambidis and J. P. Coghlan

93 Angiotensin II receptor subtypes in rat brain
K. Song, A. M. Allen, G. Paxinos and F. A. O. Mendelsohn

97 Tonic control of subretrofacial vasomotor neurons in the rostral ventrolateral medulla
R. A. L. Dampney and S. Sasaki

101 Cardiac chemoreceptors: Pharmacological curiosities or physiological tools?
J. Ludbrook and R. G. Evans

107 Changes in cardiac angiotensin converting enzyme after myocardial infarction and hypertrophy in rats
C. I. Johnston, V. Mooser, Y. Sun and B. Fabris

111 There are few catecholamine- or neuropeptide Y-containing synapses in the intermediolateral cell column of rat thoracic spinal cord
I. J. Llewellyn-Smith, J. B. Minson, P. M. Pilowsky and J. P. Chalmers

117 Ionic mechanisms regulating sodium entry into vascular smooth muscle
A. Bobik, P. J. Little and C. B. Neylon

121 Enhanced myocardial metabolism improves recovery after cardiac surgery and transplantation
F. L. Rosenfeldt, C. Munsch, L. Langley, R. Conyers and J. F. Williams

123 The role of the macula densa in renin synthesis
T. Morgan, G. Barrett, Y. Zhang and D. Alcorn

NUMBER 3, MARCH

Short Communications from the Symposium 'Future Directions in Cardiovascular Research' held in honour of Professor Paul I. Korner

127 Oleic acid-induced injuries in the guinea-pig: Effects of allopurinol on cell dynamics, erythrocyte-catalase and uric acid plasma levels
U. Hultkvist-Bengtsson and L. Mårtensson

131 Endothelin-1 enhances vasoconstrictor responses to sympathetic nerve stimulation and noradrenaline in the rabbit ear artery
H. K. Wong-Dusting, M. La and M. J. Rand

137 Effects of adrenaline and noradrenaline on clearance of triacylglycerol-rich lipoproteins from plasma: Studies with chylomicron-like lipid emulsions in rats
V. Mackintosh and T. G. Redgrave

145 Effect of parathyroidectomy on development of hypertension and atrial responsiveness in spontaneous hypertensive rats
R. Schleiffer, J. Ghysel-Burton, M. Finet and A. Gairard

155 Orthostatic and postprandial blood pressure reduction in patients with essential hypertension
K. Masuo, H. Mikami, N. Habara and T. Ogihara

163 Inhibition of cyclic GMP phosphodiesterase by xanthine derivatives relaxes guinea-pig trachealis smooth muscle
H. Tanaka, K. Ogawa, K. Takagi, T. Satake and H. Hidaka

169 Failure of the Kety-Schmidt nitrous oxide method for determination of myocardial blood flow
M. A. Reid, L. E. Mather, W. B. Runciman and C. F. McLean

179 Mechanisms of lidocaine actions on normal and abnormal rhythms in canine cardiac tissues *in vivo* and *in vitro*
P. Abete, N. Ferrara, F. Rengo and M. Vassalle

193 Rapid Communication: The route of morphine administration affects the development of tolerance in relation to gastric emptying in rats: Is morphine-6-glucuroside involved?
P. K. Janicki, W. A. R. Erskine and M. F. M. James

195 **Book Review**

196 **Announcement**

NUMBER 4, APRIL

197 Role of the sympathetic nervous system in the onset of hypertension in the rat: The effect of 6-OH-dopamine
M. Li and J. A. Whitworth

205 The effect of vasoactive intestinal peptide (VIP) on the contractile activity of human uterine smooth muscle
M. J. Leroy, G. Tanguy, M. Vial, W. Rostène, A. Malassiné and F. Ferré

217 Reperfusion arrhythmias in closed-chest rats: The effect of myocardial noradrenaline depletion and Ca^{2+}-antagonism
M. Kirchengast and S. Hergenröder

223 Cardiovascular responses to nifedipine in anaesthetized rats with abnormal blood gas/pH levels
F. I. Achike and S. Dai

231 Investigations into interactions between doxazosin and enalaprilat at α_1-adrenoceptors in anaesthetized rats
J. Marwood, G. Tierney and G. Stokes

237 Thromboxane A_2 receptor stimulation similarly potentiates pressor responses to 5-hydroxytryptamine in perfused hind-quarters of non-diabetic and alloxan diabetic rats
B. W. Sikorski, W. C. Hodgson and R. G. King

245 Use of nicotine, bradykinin and veratridine to elicit cardiovascular chemoreflexes in unanaesthetized rabbits
R. G. Evans, J. Ludbrook and J. Michalicek

Short Communications

255 Natriuretic effect of TMB-8 in anaesthetized dogs
A. Takahare, A. Ogasawara, M. Suzuki-Kusaba, H. Hisa and S. Satoh

259 The inhibitory effect of bevantolol on the accumulation of non-esterified fatty acids during ischaemia in the dog heart *in situ*
I. Miura, Y. Nasa, K. Ichihara and Y. Abiko

NUMBER 5, MAY

Short Communications from the High Blood Pressure Research Council of Australia

265 Effects of dietary sodium restriction and fish oil supplements on blood pressure in the elderly
L. Cobiac, P. J. Nestel, L. M. H. Wing and P. R. C. Howe

269 Sodium and volume dysregulation after apparently normal pregnancy is suggested by abnormal levels of ANP, renin and aldosterone
W. L. Finn, T. J. Tunny, S. A. Klemm, I. S. Jones, K. De Voss and R. D. Gordon

275 Clonidine suppression test reliably differentiates phaeochromocytoma from essential hypertension
A. W. Bachmann and R. D. Gordon

279 A controlled study of the effects of aerobic exercise on antihypertensive drug requirements of essential hypertensive patients in the general practice setting
D. H. G. Allen, I. B. Puddey, A. R. Morton and L. J. Beilin

283 Clinical and pathological diversity of primary aldosteronism, including a new familial variety
R. Gordon, M. Stowasser, T. Tunny, S. Klemm, W. Finn and A. Krek

287 Urinary steroid profiles and alcohol-related blood pressure elevation
T. A. Mori, I. B. Puddey, S. P. Wilkinson, L. J. Beilin and R. Vandongen

291 Potassium, glucose, insulin interrelationships during adrenaline infusion in normotensive and hypertensive humans
R. D. Gordon, A. W. Bachmann, D. M. Ballantine and R. E. Thompson

295 Does urinary atrial natriuretic peptide reflect plasma levels in humans?
T. J. Tunny, W. L. Finn, S. A. Klemm and R. D. Gordon

299 Histamine-induced calcium oscillations in human vascular smooth muscle: Temporal sequence and spatial organization in single cells
C. B. Neylon, W. T. Mason and R. F. Irvine

303 L-type calcium channels and CRH-mediated ACTH and cortisol release in humans
G. I. Hockings, J. E. Grice, M. M. Walters and R. V. Jackson

309 The syndrome of hypertension and hyperkalaemia with normal glomerular filtration rate: Is there a deficiency in vasodilator prostaglandins?
S. A. Klemm, A. Hornych, T. J. Tunny and R. D. Gordon

315 Effects of endothelin-1 on arterial pressure and myocardial contractility in the conscious normotensive rabbit
P. Roberts-Thomson, R. J. McRitchie and J. P. Chalmers

319 Multiple growth abnormalities in vascular smooth muscle from spontaneously hypertensive rats
J. Saltis, P. Little and A. Bobik

323 Relevance of the waterfall phenomenon in continuous finger cuff blood pressure measurements
H. Kobler, M. Cejnar and S. N. Hunyor

327 Haemodynamic and hormonal effects of *N*-nitro-L-arginine, an inhibitor of nitric oxide biosynthesis, in sheep
J. J. Tresham, G. J. Dusting, J. P. Coghlan and J. A. Whitworth

331 Culturing rat neonatal myocytes causes changes in the phosphatidylinositol turnover pathway
E. A. Woodcock, M. Fullerton, S. Land and I. J. Kuraja

337 Autoradiographic localization of angiotensin-converting enzyme and angiotensin II binding sites in early atheroma-like lesions in rabbit arteries
M. Zambetis-Bellesis, G. J. Dusting, F. A. O. Mendelsohn and K. Richardson

341 Reduction in left ventricular mass in normotensive and spontaneously hypertensive rats given enalapril
V. Mooser, D. Casley, D. Trinder, D. L. Paxton and C. I. Johnston

345 Characterization of monoclonal antibodies to a rat liver vasopressin receptor
D. Trinder, V. Mooser, J. M. Kelly, P. A. Phillips, D. Casley and C. I. Johnston

349 Effects of V_2 receptor activity on the pressor response to vasopressin in the rat
K. Shimizu, J. Schwartz and B. P. McGrath

353 Angiotensin-converting enzyme in macro- and microvessels of the rat
K. Jandeleit, B. Jackson, R. Perich, D. Paxton and C. I. Johnston

357 Renin gene expression in various tissues determined in single-step polymerase chain reaction
Y. Lou, D. L. Smith, B. G. Robinson and B. J. Morris

363 A locus on the long arm of chromosome 1 as a possible cause of essential hypertension
L. R. Griffiths, R. Y. L. Zee, L-H. Ying and B. J. Morris

367 Enhanced vasoconstriction by serotonin in rabbit carotid arteries with atheroma-like lesions *in vivo*
C. G. Sobey, G. J. Dusting and O. L. Woodman

371 Haemodynamic responses to *N*-nitro-L-arginine in conscious rabbits
Z. Y. Du, G. J. Dusting and O. L. Woodman

375 Effect of angiotensin-converting enzyme inhibition of renal norepinephrine spillover rate and baroreflex responses in conscious rabbits
T. Noshiro, D. Way and B. P. McGrath

NUMBER 6, JUNE

397 Editorial Review
On making multiple comparisons in *Clinical and Experimental Pharmacology and Physiology*
J. Ludbrook

393 Chloride ion ingested with sodium affects the development of cerebral lesions in stroke-prone spontaneously hypertensive rats
K. Ikeda, Y. Nara and Y. Yamori

397 L-Nitroarginine increases blood pressure in the rat
Y. Kobayashi, K. Ikeda, K. Shinozuka, Y. Nara, Y. Yamori and K. Hattori

401 Contribution of α_2-adrenoceptors to the central cardiovascular effects of clonidine and S 8350 in anaesthetized rats
V. Deckert, V. Lachaud, A. Parini and J-L. Elghozi

409 Secretion of Medullipin I by isolated kidneys perfused under elevated pressure
E. E. Muirhead, B. Brooks, L. W. Byers, P. Brown and J. A. Pitcock

419 Effect of gonadotropins and pregnancy on prorenin and renin in the rat
A. H. Nielsen, A. Hagemann and K. Poulsen

425 Effect of reserpine on catecholamine contents and met-enkephalin and β-endorphin levels in the hypothalamus and the pituitary
F. Tang

431 Diltiazem and verapamil lower blood pressure in the unanaesthetized rat through CNS mechanisms involving endogenous opioids
S. W. Rabkin

439 Effect of tolerance to glyceryl trinitrate on vascular responses in conscious rabbits
Z. Y. Du, G. J. Dusting and O. L. Woodman

449 Distribution and inhibition of neutral metalloendopeptidase (NEP) (EC 3.4.24.11), the major degradative enzyme for atrial natriuretic peptide, in the rat kidney
M. Kanazawa and C. I. Johnston

NUMBER 7, JULY

455 Review Article
Presynaptic regulation of neurotransmitter release in hypertension
K. Tsuda and Y. Masuyama

469 Evidence against the involvement of vasoactive intestinal peptide in ovine parotid secretion and blood flow
R. D. Wright, J. R. Blair-West, A. P. Gibson and A. Shulkes

475 Direct and indirect stimulation of pancreatic exocrine secretion by neurotensin in anaesthetized dogs
K. Iwatsuki, A. Horiuchi, L-M. Ren and S. Chiba

483 Metabolic basis of catecholamine-induced water transport in everted gut sacs of mouse
P. L. Mary and J. Prakasa Rao

489 The effect of azumolene on hypercontractility and sarcoplasmic reticulum Ca^{2+}-dependent ATPase activity of malignant hyperpyrexia-susceptible porcine skeletal muscle
P. S. Foster, K. C. Hopkinson, N. Payne and M. A. Denborough

497 Effects of torasemide on renal haemodynamics and function in anaesthetized dogs
T. Uchida, K. Hayashi, Y. Suzuki and Y. Matsumura

505 Digoxin-like immunoreactivity increases with intravenous infusion of saline in rats
H. Takahashi, M. Matsusawa, M. Nishimura, I. Ikegaki, T. Nakanishi and M. Yoshimura

509 *In vitro* autoradiographic endothelin-1 binding sites and sarafotoxin S6B binding sites in rat tissues
M. Kohzuki, C. I. Johnston, K. Abe, S. Y. Chai, D. J. Casley, M. Yasujima, K. Yoshinaga and F. A. O. Mendelsohn

517 Increase in reactivity of human platelet guanylate cyclase during aggregation potentiates the disaggregating capacity of sodium nitroprusside
Y. Y. Chirkov, N. N. Belushkina, I. A. Tyshchuk, I. S. Severina and J. D. Horowitz

NUMBER 8, AUGUST

525 Lack of sympathetic augmentation in response to intravenous load of glucose in rabbits
S. Takishita, Y. Takata, I. Abe, Y. Tomita, N. Kawazoe, M. Fujishima and K. Fukiyama

533 Differential effects on action potential duration of class Ia, b and c antiarrhythmic drugs: Modulation by stimulation rate and extracellular K^+ concentration
T. J. Campbell, K. R. Wyse and R. Pallandi

543 Activation of Na^+/H^+ exchange is unnecessary in the induction of *c-fos* mRNA in serum-stimulated vascular smooth muscle cells
T. Nabika, A. Kobayashi, Y. Nara, J. Endo and Y. Yamori

551 Urinary excretion of prostanoids during sleep in obstructive sleep apnoea patients
J. Krieger, D. Benzoni, E. Sforza and J. Sassard

557 Atrial natriuretic peptide inhibits the aldosterone response to metoclopramide in patients with glomerular disease and essential hypertension
H. Matsuoka, K. Fukui, Y. Dan, T. Ishimitsu, Y. Hirata, K. Kimura, T. Sugimoto, M. Ishii, K. Kangawa and H. Matsuo

563 Ketoconazole and plasma and urine steroid levels in Cushing's disease
R. H. Mortimer, G. R. Cannell, C. M. Thew and J. P. Galligan

571 Development of tolerance to kava in mice
P. H. Duffield and D. Jamieson

579 Anti-ischaemic and vasospasmolytic effects of a novel Ca^{2+} channel blocker, SD-3211, *in vitro*
N. Miyawaki, T. Furuta, T. Shigei, F. Yamazaki and H. Yamauchi

NUMBER 9, SEPTEMBER

587 Editorial

589 Intracellular pH and sodium-proton exchange activity of lymphocytes in stroke-prone spontaneously hypertensive rats
L. Di-yuan, A. Kobayashi, Y. Nara, K. Ikeda, C. Mori and Y. Yamori

593 Genetic factors regulate the rise in blood pressure in F_2 generation crossed between stroke-prone spontaneously hypertensive rats and Wistar-Kyoto rats
K. Ikeda, Y. Nara, T. Nabica, A. Fujimoto, J. Endo, H. Ishino and Y. Yamori

599 Comparison of vasopressor effects of nitro arginine in stroke-prone spontaneously hypertensive rats and Wistar-Kyoto rats
Y. Kobayashi, K. Ikeda, E. Kakizoe, K. Shinozuka, Y. Nara, Y. Yamori and K. Hattori

605 Factors associated with silent multiple lacunar lesions on magnetic resonance imaging in asymptomatic elderly hypertensive patients
A. Kawamoto, K. Shimada, K. Matsubayashi, M. Nishinaga, S. Kimura and T. Ozawa

611 Exercise-loaded blood pressure and Li–Na countertransport system in the erythrocyte membrane as predictors of mild essential hypertension prognosis
T. Saito, N. Onuma, M. Yamamoto, N. Kai, K. Yamamoto, J. Iwata, K. Yamada, F. Deguchi and Y. Inagaki

619 Effect of delapril on the vascular angiotensin II release in isolated hind legs of the spontaneously hypertensive rat: Evidence for potential relevance of vascular angiotensin II to the maintenance of hypertension
K. Mizuno, M. Tani, S. Niimura and S. Fukuchi

627 Role of platelet cytosolic calcium in the response to salt intake in normotensive subjects
H. Yamakawa, H. Suzuki, M. Nakamura, Y. Ohno and T. Saruta

631 Calcium metabolism in elderly hypertensive patients: Possible participation of exaggerated sodium, calcium and phosphate excretion
M. Imaoka, S. Morimoto, S. Kitano, K. Fukuo and T. Ogihara

643 Potentiation by aldosterone of vasopressin-induced calcium kinetics in vascular smooth muscle cells
K. Okada, S-E. Ishikawa and T. Saito

649 Pathogenetic role of vascular angiotensin-converting enzyme in the spontaneously hypertensive rat
H. Okunishi, T. Kawamoto, Y. Kurobe, Y. Oka, K. Ishii, T. Tanaka and M. Miyazaki

661 Coronary vascular response to endothelin in isolated perfused hearts of spontaneously hypertensive rats
H. Takeshita, M. Nishikibe, M. Yano and F. Ikemoto

Short Communication

671 Enhanced beta-adrenergic signal transduction in spontaneously hypertensive rats
S-I. Maie, F. Ohusuzu, S. Katsushika, M. Akanuma, N. Aosaki, H. Nakamura, H. Ohashi

NUMBER 10, OCTOBER

675 Editorial Review
Non-adrenergic, non-cholinergic neural control of the airways
D. Stretton

685 Effect of long-term treatment with an angiotensin-converting enzyme inhibitor on the renin-angiotensin system in spontaneously hypertensive rats
R. Morishita, J. Higaki, H. Okunishi, T. Kawamoto, K. Ishii, F. Nakamura, K. Katahira, M. Nagano, H. Mikami, M. Miyazaki and T. Ogihara

691 A comparison of the anticonvulsant effects of propofol and thiopentone against pentylenetetrazol-induced convulsions in the rat
Z. Hasan, M. Hasan, A. Al-Hader and M. Takrouri

697 Acute effects of exercise on plasma lipids, noradrenaline levels and plasma volume
H. Krum, E. L. Conway and L. G. Howes

703 Stress in mice increases intrinsic pentobarbitone sensitivity by a predominantly pharmacodynamic mechanism
J. J. Carmody, G. G. Graham and M. A. Ruigrok

711 Effects of clonidine on blood pressure and heart rate responses to an emotional stress in the rat: A spectral study
J. Blanc, M-L. Grichois and J-L. Elghozi

719 Effect of stress on serotonin, norepinephrine, epinephrine and corticosterone contents in the soft-shelled turtle
M. S. Mahapatra, S. K. Mahata and B. Maiti

725 Vasopressin response to haemorrhage in rats: Effect of hypoxia and water restriction
H. Raff, M. H. Rossing, S. K. Doepker, S. C. Griffen and B. M. Jankowski

Rapid Communication

731 Decreased conversion of big endothelin-1 to endothelin-1 in patients with diabetes mellitus
K. Tsunoda, K. Abe, T. Sato, S. Yokosawa and K. Yoshinaga

733 **Book Reviews**

734 **Corrigendum**

NUMBER 11, NOVEMBER

735 Editorial Review
Effects of respiration on blood pressure and heart rate variability in humans
J-L. Elghozi, D. Laude and A. Girard

743 Differential actions of the medial region of caudal medulla on autonomic nerve activities
C. T. Yen, J. C. Hwang, C. K. Su, Y. F. Lin, J. M. Yang and C. Y. Chai

753 Comparison of inotropic and chronotropic responses in rat isolated atria and ventricles
L. Brown, C. Sernia, R. Newling and P. Fletcher

761 The use of non-invasive blood pressure measurements to measure pressor responses in rats during air stress
H. G. Spanos, R. DiNicolantonio and T. O. Morgan

767 Calcium-channel blocking agents verapamil and diltiazem are inhibitors of vasopressin-induced human platelet activation
G. Anfossi, E. Mularoni, P. Massucco, F. Cavalot, S. Burzacca, L. Mattiello and M. Trovati

775 Effects of adrenoreceptor antagonists and agonists on clearance of emulsion models of triacylglycerol-rich lipoproteins from plasma in rats
V. S. Mackintosh, C. L. Elsegood and T. G. Redgrave

789 ACTH hypertension in the rat: Role of kidney and gonads
J. A. Whitworth and T. D. Hewitson

NUMBER 12, DECEMBER

797 Normotensive Wistar rats differ from spontaneously hypertensive and renal hypertensive rats in their cardiovascular responses to opioid agonists
E. Widy-Tyszkiewicz and A. Członkowski

807 Influence of beta-blockade on circulating plasma levels of 3-methoxy-4-hydroxy phenylethylene glycol (MHPG) during exercise in moderate hypertension
M. D. Drici, M. Roux, M. Candito, A. Rimailho, P. Morand and P. Lapalus

813 Altered responses of aortic smooth muscle from Sprague-Dawley rats with salt-induced hypertension
P. C. M. Obiefuna, A. B. Ebeigbe, O. A. Sofola and C.P. Aloamaka

819 Renal sodium excretion following systemic infusion of vasoactive intestinal peptide in the rat
M. A. Lonergan and M. J. Field

825 Neuropeptide Y radio-immunoassay: Characterization and application
R. Allen, J. Boublik, R. L. Hauger, N. Scott, J. Rivier and M. R. Brown

835 Effects of opiates on sodium excretion in the isolated perfused rat kidney
A. G. Ellis and W. R. Adam

Short Communications

843 Delayed recovery from N^G-nitro-L-arginine in the conscious sheep
C. K. Narkowicz, J. H. Vial and X. F. Xu

847 Recombinant human interleukin-6 enhances the antiproliferation and differentiation inducing effects of retonoic acid in HL-60 human myeloid leukaemic cells
H. T. Hassan
